### JTV Variax HD - Designed by James Tyler, so it’s a really great guitar!

James Tyler Variax is loaded with our latest HD models created using specially hand-picked specimens of the classic instruments we all dream of owning. It’s like owning the ultimate guitar collection that includes electric, acoustic, twelve-string, ethnic strings, folk & baritone guitars all built into one instrument. You can be a virtual luthier by tweaking, modding, and creating guitars with the Free Workbench Software. You can even layer your modelled sounds with the magnetic pick-ups. It’s an inspirational playground of tonal possibility.

The alternate, drop, and open tunings included (or ones that you create) will let you slay your writing, live gigs, and recordings with ease.

**Now, for a limited time, you can get £100 cash-back on any JTV model**
